Don't Be Limited By "Special" Sales... Get Washworld's Best Prices Every Day!

There **IS** a difference when it comes to pricing. Not all bottom line costs tell the whole story. There are some low cost wash units that won't even wash cars without the "options" added on and for others, the best features are always extra. It just doesn't make sense to pay more for the latest technology... especially since with Washworld that technology is standard. With Washworld there are no surprise extras, no hidden costs to get you up and running. And of course you get the high quality, dependable systems for which Washworld is famous at our everyday low price, plus free, unlimited technical support available 24/7.

Don't wait for a "sale" that may not offer you the best value, Washworld offers you the better choice. Give us a call to see how you can make the smart choice, the cost effective choice when you choose Washworld.
